

## SIMPLE PROGRAM IMPLEMENTATION

We do the heavy lifting. You and your employees reap the rewards.

### VIVANTE'S 5-STEP APPROACH

From start to finish, we provide the tools you need to make an informed decision and get your employees on track to better health—gut first.

#### 1 Insightful claims analysis, no cost to you

Uncover the hidden costs of digestive disorders within your organization.

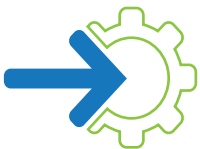

- Digestive disorders among your covered population, including risk and severity
- Current and future cost of GI-related medical and Rx drug claims
- Projected ROI

#### 2 Review the report and ask questions

Evaluate what we bring to the table. Choose the pricing model that makes sense for you:

- Fee for Service (FFS): Traditional in-network provider model, using CPT codes for billing
- Per Active Participant Per Month (PAPPM): Bundled all-inclusive plan, only bills for members actively engaged in the GIThrive program
- Per Employee Per Month (PEPM): Small flat monthly fee for all eligible participants
- **Bold performance guarantee:** Up to 25% of fees

#### 3 Smooth, no-cost implementation (8-12 weeks)

Dedicated client success team ensures things go smoothly for your HR department.

- Setting up data exchanges: eligibility files, supplemental employee contact information, and claims files
- Quick launch: As soon as 30 days after receiving your data

#### 4 Easy member onboarding

We handle it all.

- Employee outreach and program promotion: email, phone, worksite posters, mailers, interactive web content, and more
- Simple member enrollment: via GIThrive mobile app, computer, or toll-free number

#### 5 Let the GIThrive<sup>®</sup> program do its thing

At Vivante Health, we are the digestive health experts. Our program is results driven:

- We track key metrics.
- We provide standard activity, satisfaction, and outcomes reporting so you can monitor program success.
